Quick Guide:
How to Remote Deposit a Check (Mobile)

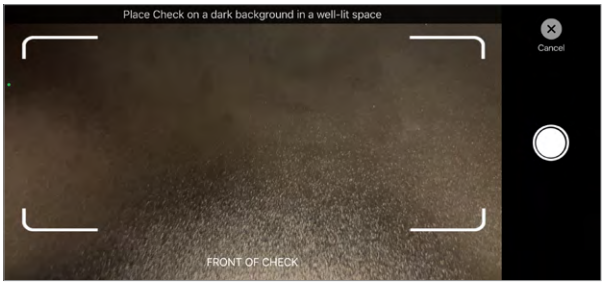

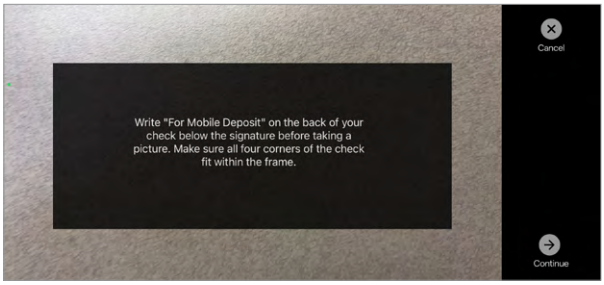

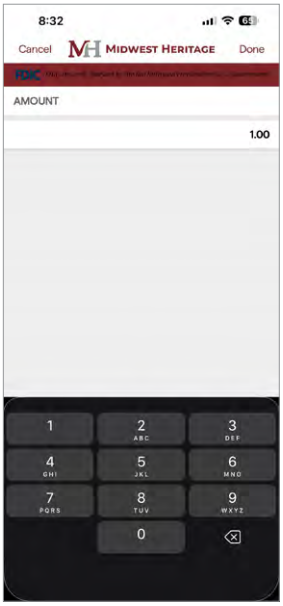

To remotely deposit a check, begin by navigating to the **Deposit** tab, located in the middle of the bottom navigation bar. Next, select **Deposit a Check** and choose the account you would like the funds deposited into.

Follow the on-screen instructions to take clear photos of both the **front and back** of your check. Once the photos have been submitted, enter the **check amount** and follow the remaining prompts to complete your deposit.
